TALK

1. How does AI memorize knowledge?

Oct. 10, 2025

Lab Visit from Matsue-Minami High School.

ACADEMIC SERVICE

1. Teaching Assistant, Continuous Algorithm

Oct. 2025 - Present

WORK EXPERIENCE

EQUES Inc., Tokyo, Japan

Mar. 2024 - Present

Lead Engineer

- Led the development of a large language model (LLM) specialized for pharmaceutical and pharmacy applications
- Established coding standards and best practices for team collaborative development, enhancing the overall technical proficiency of the company

Matsuo Institute Inc., Tokyo, Japan

Sep. 2023 - Present

Machine Learning Engineer

- Developed and evaluated 10+ machine learning and deep learning models for power demand forecasting
- Gained expertise in collaborative development practices, including continuous integration (CI)

and rigorous code reviews

Guild Labo Ltd., Tokyo, Japan

Dec. 2022 - Present

Engineer

- Developed a diffusion-based image generation model for anomaly detection applications.
- Build a unified web-based platform for coordinated control of multiple types of robots.
- Implemented and evaluated a reproduction of a BERT-based representation learning model for 3D modeling tasks.
